VAD GÖR VI?

Welcome to Revsunds taproom, where we pride ourselves on using locally produced raw materials (as far as possible) to create exceptional dishes for our guests. By sourcing ingredients from nearby farmers, artisans, and suppliers, we ensure the freshest flavors while supporting our local community. Our menu showcases the best of what our region has to offer, from farm-fresh produce to ethically raised meats and fish directly from the lake Revsund. Indulge in a culinary experience that not only delights

your taste buds but also contributes to the preservation of our environment and the growth of our local economy. Raw material that we can't get hold on locally we buy from nearest place possible. Most drinks are from our own brewery & distillery.

We always have something that are vegetarian and vegan friendly. Just ask if something is unclear.
